SOURCE

1. Below is a list of fortifications constructed in the Astara frontier area during the months of November and December 1951 and January 1952:
 - A. A concrete fortification, about two meters high, with installations for heavy and light machine guns and mortars, has been constructed approximately 20 meters south of the health center of the Soviet garrison of Astara. Four personnel shelters also have been constructed at this location.
 - B. A concrete fortification, similar to that described in the above paragraph, and four personnel shelters have been constructed also at the following locations:
 - a. Masjed-Mahalleh, seven meters south of the stables of the Soviet garrison.
 - b. Haidar-Mahalleh, in front of the observation post.
 - c. Bagh-Siruz frontier post, in front of the watchtower.
 - d. Baharestan frontier post, in front of the watchtower.
 - C. A trench has been dug at Qermezi post, in front of the post and about 20 meters to the right of it.
2. The following is a list of Soviet frontier fortifications and trenches in the Astara frontier area, with appropriate descriptive material.
